 Bonnie Brae

INTENSIVE IN-COMMUNITY SERVICES

ABOUT US

Bonnie Brae has helped over 10,000 boys and families since its founding as a residential treatment center in 1916. Bonnie Brae has since established intensive in-community (IIC) services, providing in-home community based therapy and behavioral assistance services. IIC services are aimed to provide clinical support for parents/caregivers in the home with youth with emotional and behavioral difficulties. The goal is to stabilize the youth in the home and strengthen/preserve the family constellation.

OUR SPECIALTIES

Bonnie Brae staff are trained in a variety of areas including but not limited to:

- Co-occurring Disorders
- Sexually Abusive Behavior
- Developmental Disabilities
- Complex Trauma
- Youth in the Juvenile System
- Post Traumatic Stress Disorder
- Attention Deficit-Hyperactivity Disorder
- Oppositional Defiance
- Anxiety
- Depression
- Parent-Child Conflict
- Anger Management

SERVICES WE PROVIDE

INTENSIVE IN-COMMUNITY THERAPY/ BEHAVIORAL ASSISTANCE

Our IIC clinicians are licensed by the State of New Jersey and use a variety of techniques including but not limited to cognitive behavioral therapy, family therapy, play therapy, and relaxation training. All our therapists specialize in assisting families and youth with transitions from out of home settings back to the community. All clinicians are trained with a trauma informed care approach.

Our behavioral assistants (BAs) are bachelor-degree-level staff and are state certified to provide services. BAs work with a licensed IIC clinician to implement specific strategies aimed at attaining the youth and family's treatment goals.

SUBSTANCE USE EVALUATION

Our substance use counselors are licensed by the State of New Jersey. Bonnie Brae offers additional drug testing services with the substance use evaluation upon request.

PSYCHOLOGICAL EVALUATION

Our psychologist on staff has over 30 years experience with Bonnie Brae providing psychological evaluations for youth. He is able to provide cognitive testing, forensic evaluation, and evaluation used for developmental disability eligibility.
