

Institute for Prevention and Recovery

Improving community health and social care in New Jersey for 30 years

The RWJBarnabas Health Institute for Prevention and Recovery (IFPR) is a leader in creating the systems and services necessary to improve the health of communities throughout New Jersey. For over 30 years, IFPR has provided substance use disorder prevention programs, nicotine and tobacco treatment and innovative recovery support and social care services, taking a systems change approach to address social determinants of health and enhance care delivery systems throughout RWJBarnabas Health and New Jersey. IFPR is the largest provider of hospital-based recovery support services in the United States and the largest provider of free tobacco and nicotine treatment services in New Jersey.
