Shape to Success Co-Founders Kassi Metz MS Ed (left) & Diana Dufner M.Ed (right) Board Certified Behavior Analysts (BCBA's)

OUR SERVICES

Center-Based ABA

Center-based ABA services are 1:1 and implemented by a Behavior Technician (BT). A Board Certified Behavior Analyst (BCBA) will supervise programming and treatment plans. All programming is individualized to your child's specific needs based upon the results of assessments. Your child will be provided opportunities to engage in socialization and play with peers.

In-Home ABA

A BT will implement your child's individualized programming at-home that is tailored to their needs. The BT will collect data that will make empirical decisions to drive intervention. A BCBA will provide ongoing supervision of all programming and treatment plans for your child to achieve milestones and reach their fullest potential.

Parent Training

Parents and family members will be trained on programming, behavior reduction and reinforcement procedures. Together we will work collaboratively as a team to have your child achieve success.
