

# Thriftiness is my calling card.

**I am a Saver.** To me, nothing beats the thrill of a good clearance rack sale. Natural light is my favorite fixture. And when it comes to using less energy at home, PSE&G always gives me good advice.

Reward your inner Saver. Reduce your energy use right away.

The more energy efficient your home is, the more you can enjoy it. Better yet, you'll be spending less on energy every month. Our **Home Weatherization** assessment can help.

**30%**

**lower energy costs**

If you qualify, you could start saving up to 30% on your energy costs once you make the recommended upgrades we'll identify during your free assessment.\*

**Become a Saver**

Visit [pseg.com/HomeWeatherization](https://pseg.com/HomeWeatherization) to register, check your eligibility, and schedule your appointment.

† If you rent, PSE&G will need approval from the property owner.

‡ Income verification includes documentation of all sources of income for every person counted as living within the household. Documentation may include tax filings, benefit statements, or other verifiable records. PSE&G reserves the right to verify income if deemed necessary.

§ Products may include LED light bulbs, advanced power strips, an ENERGY STAR® certified smart thermostat, and more. See website for details.

¶ May include measures such as a smart thermostat, insulation upgrades, weather stripping, ductwork, and/or heating and cooling equipment tune-ups or replacements. Upgrades will be scheduled for future visits and may take two to six months to complete.

This program is subject to change, including termination, without prior notice.

# House proud. Budget conscious. That's how I roll.

It's possible to reduce your energy use and manage your monthly costs while enjoying your home. Upgrading your energy efficiency can help you do all three.

Home Weatherization  
Overview

## Your savings are waiting. See if you're eligible.

To participate in Home Weatherization, you must be a current PSE&G residential customer, live in a single-family home or multifamily building with eight or fewer units, and meet **at least one** of the following requirements:†

- ✓ Your primary home is located within an overburdened community, or a low- or moderate-income census tract, and you are willing to self-certify your income.‡
- ✓ You take part in the SHARES federal/safety net partnership program and you can provide proof of participation.
- ✓ Your household income falls within the qualifying household income range below and you can provide verification.

Number of People in Your Home	Annual Household Income	
	Minimum	Maximum
1	\$39,901	\$63,840
2	\$54,101	\$86,560
3	\$68,301	\$109,280
4	\$82,501	\$132,000
5	\$96,701	\$154,720
6	\$110,901	\$177,440
7	\$125,101	\$200,160
8	\$139,301	\$222,880
<b>Each Additional</b>	\$14,200	\$22,720

### Not qualified? No problem.

Visit [pseg.com/WholeHome](https://pseg.com/WholeHome) and answer a few simple questions. We'll help you find another home assessment that may be right for you.

## You're only three steps away from savings.

- 01** Schedule an in-person walk-through with a certified PSE&G energy adviser.
- 02** Get expert advice and energy-saving products at no cost.<sup>§</sup>
- 03** Receive additional upgrades depending on your home's needs.<sup>¶</sup>

## Essential upgrades for everyday living.

Depending on your home's needs, you could also receive multiple energy efficiency, health, and safety improvements, which may include measures such as:

-  Installation of a programmable smart thermostat
-  Insulation upgrades in walls, ceilings, and attic
-  Weather stripping of existing windows and doors
-  Ductwork sealing and repair
-  Heating and cooling system tune-ups or replacements
-  Replacement of qualified refrigerators and upright freezers

The upgrades will be scheduled for one or more future visits, and may take two to six months to complete.
