### New Jersey Social Skills Program

MAY 2026

Our Social Skills Program in New Jersey serves learners of all ages across Burlington, Gloucester, Atlantic, Monmouth, Union, and Camden counties, with plans to expand into Ocean, Middlesex, Essex, and Somerset counties. We offer both community-based and center-based events designed to create meaningful, real-world learning opportunities. Through activities like outings, games, and group sessions, learners build communication, social interaction, emotional regulation, problem-solving, and independence skills. The program promotes increased confidence, improved peer relationships, greater community participation, and the ability to generalize skills across environments.
