

DESIGN APPROACH:

Two of the main goals of this joint venture are to provide multi-sensory stimulation through music and vibration, and to provide movement and challenge for all abilities.

ENVIRONMENTAL CONSIDERATIONS:

The work requires minimal disturbance to the site in the area north of the existing playground.

PROJECT STATUS:

The project is complete thanks to the generous donation of the Colts Neck Lions Club in the amount of \$122,000. Picerno-Giordano Construction, LLC, Kenilworth, NJ were the installers. A welcome addition to Challenger Place and heavily used.
