

There's No Place Like Home

180 Turning Lives Around's domestic violence awareness month art exhibit 2022 is a reflection of HOME from a survivor's perspective.

When domestic violence is experienced, home is no longer a place of peace or safety. This art exhibit was created by the parents of 180's Amanda's Easel. It represents their journey from their experience of domestic violence toward a home free from abuse.

There's No Place Like Home is a traveling domestic violence awareness art exhibit and will be on display throughout the year.
